

Husqvarna®
READY WHEN YOU ARE

HUSQVARNA AUTOMOWER® 2021

WORLD LEADER IN ROBOTIC MOWING SINCE 1995

With over 25 years of research, innovation and lush, green lawns have made Husqvarna Automower® the world leader in robotic mowing. We've sold more than 2 million around the world – and our latest generation is the most advanced on the market. Designed for functionality and durability, they work quietly, efficiently and autonomously to give you a better finish than any other mower. Day and night, whatever the weather, Husqvarna Automower® gets on with the job. Leaving you to focus on the things that really matter and enjoy a beautiful, perfectly cut lawn everyday.

HUSQVARNA AUTOMOWER®

Drive motors with Ultrasilent technology enable extremely low noise levels

Remote object detection makes the mower slow down before bumping into an object

Automower® Access – interact intuitively via high resolution colour display and jog wheel (Automower® 435X AWD)

Low weight and smart design allows for high capacity and low energy consumption

All-wheel-drive and unique articulated body design with excellent manoeuvrability – for complex and steep gardens

EXCELLENT SLOPE PERFORMANCE

Thanks to the all-wheel-drive, Husqvarna Automower® AWD can cope with slopes up to 70% (35°) whereas other models manage slopes of up to 45% (24°).

GPS-assisted navigation ensures uniform cutting result in complex gardens

Energy efficient LED lights for better visibility during night time mowing

Weather timer automatically adapts the amount of mowing to the lawn growth rate – for a carefree operation

GPS-ASSISTED NAVIGATION FOR OPTIMAL MOWING IN COMPLEX AREAS

Husqvarna Automower® X-Line have an onboard GPS system that creates a map of the lawn. The robotic mower knows exactly which parts of the lawn it has covered and optimises the mowing pattern automatically.

AUTOMOWER® CONNECT JUST ADD A SMARTPHONE

Automower® Connect is a feature that gives you full control of the mower right in your smartphone. You can send start, stop and park commands, check and adjust the settings, and also receive alarms and track your mower's position in case of theft – wherever you are. Standard on all X-Line models.

10 YEARS OF FREE CONNECTIVITY INCLUDED!

THINGS TO CONSIDER WHEN BUYING A HUSQVARNA AUTOMOWER® ROBOTIC MOWER

To decide which robotic mower is most suitable for your needs, there are a few things to consider as mentioned below: Your desired working hours, the size of your lawn and the complexity in terms of slopes, shape, passages and other obstacles. Visit the Robotic Lawn Mower section on the Husqvarna website for more information and guidance. There you will also find our interactive Automower® Garden Guide to help you decide.

READ MORE AT
[HUSQVARNA.COM/UK](https://www.husqvarna.com/uk)

COMPLEXITY

If your lawn is simple and square, a less advanced robotic mower can do the job. On the other hand, if the lawn contains slopes, narrow passages, uneven areas and frequent obstacles such as bushes and trees, we recommend that you go for a mower with proven capability to handle such challenges.

WHY A HUSQVARNA AUTOMOWER® ROBOTIC MOWER WILL IMPROVE THE QUALITY OF YOUR LAWN

Husqvarna Automower® uses razor-sharp blades to cut every blade of grass little by little, resulting in a lush, green lawn that conventional blades cannot achieve. The lawn is mowed frequently, in rain and shine, producing grass clippings so small that no collection is needed. The clippings become natural fertiliser, keeping your lawn lush, green and moss free.

The Weather timer function adapts the time spent mowing so Husqvarna Automower® works more in periods of strong grass growth and less in dry, sunny weather. The electric cutting height adjustment enables you to adjust the length of your grass with a simple push of a button on the keypad, or remotely with the Automower® Connect smartphone app (X-Line models only).

WORKING HOURS

Your robotic mower shouldn't be working while your family members want to play and relax on the lawn. Make sure you choose a Husqvarna Automower® with enough capacity to mow the entire lawn during the time when your lawn is free of activity. All models are ideally suited to night time operation, the low noise levels ensure there is no disturbance.

SIZE OF YOUR LAWN

The mowing capacity specified for any robotic mower is a maximum value that can be obtained if the mower works 24 / 7 and only stops to charge the battery. Therefore, we recommend that you go for a mower capacity that substantially exceeds the size of your lawn, to have time also for play and other activities. Please see page 6 for more guidance.

Example: If your lawn is 500 m² and you want your robotic mower to work between 08.00 - 16.00 every day (8 hours / 24 = 0.33) the specified capacity should be at least $500/0.33 = 1,500$ m²

HOW IT WORKS!

Cutting little and often, leads to more efficient cutting and healthier grass.

**THE
WORLD LEADER
IN ROBOTIC
MOWING**

PRINCIPAL FUNCTION

- + Unattended mowing.
- + Mow little but efficiently and frequently.
- + Good performance even in wet weather.
- + More free time

COLLISION AND LIFT SENSORS

Collision and lift sensors increases safety. When the mower gently bumps in to an object it will reverse, turn and choose another direction. If it is lifted the blade and mower will stop immediately.

NAVIGATION

- + The boundary and guide wires are pegged to the lawn or buried just below the surface. A pegged wire disappears into the lawn in a few weeks.
- + The mower stays inside the boundary wire laid around the perimeter of the working area.
- + The charging station transmits a signal around the boundary wire ensuring the mower stays within the working area. The boundary wire can also guide the mower to the charge station.

IRREGULAR MOVEMENT PATTERN

- + No need for specific programming.
- + Covers all parts even if the lawn is complex and/or contains trees, flowerbeds, passages, etc.
- + Allows the grass to get cut from different directions. Creates a smooth carpet-like surface.

WEEK 1

WEEK 2

WEEK 3

WEEK 4

TRADITIONAL VS AUTOMATIC MOWING TECHNIQUE

The principal function of the Husqvarna Automower® provides the service of a well cut lawn, not just a lawn mower. Things like horsepower, cutting width and technical details become less important with a Husqvarna Automower® that cuts your lawn day in, and day out.

RECHARGING

When it's time to recharge, the mower finds the charger by one of three methods.

1. By picking up a signal from the charge station antenna.
2. By following the patented guide wire system back to the charging station.
3. By following the boundary until within reach of the home signal.

EFFICIENT CUTTING TECHNIQUE

- + The grass is cut with three fine, razor-sharp blades.
- + The three free-hanging blades are mounted on a disc and are easily replaced.
- + The blades can rotate back into the disc to minimise damage, should they hit hard objects – stone, branches, etc.
- + The grass mown is so fine and small that it does not need to be collected.

HOW TO CALCULATE THE LAWNS INCLINATION?

1. Place one end of a spirit level on the ground, and hold it horizontally.
2. Measure the distance down to the ground from the end of the level in the air. This distance divided by the length of the level is the inclination in %. If the measurement is 10 cm and the length of the level 50 cm the inclination is 20%.

MOWING CYCLE

- + The concept is to keep short grass short.
- + Husqvarna Automower® finds the charging station automatically.
- + Charges for approximately 60 minutes.
- + Resumes mowing, day in and day out regardless of the weather (except snow).

UNSURPASSED CUTTING RESULT

Husqvarna Automower® uses razor-sharp blades to cut every blade of grass, resulting in a lush, green lawn that conventional blades cannot achieve. The grass clippings become a natural fertiliser, helping keep lawns lush, green and moss free.

THE BENEFITS OF HUSQVARNA AUTOMOWER®

MORE FREE TIME

Husqvarna Automower® robotic mowers free you from the chore of cutting your lawn allowing you to spend time on the things that really matter.

NO CLIPPINGS

Husqvarna Automower® cut little and often recycling the micro-clippings back into the soil as natural fertiliser improving lawn health.

ADVANCED NAVIGATION

Several navigation tools, including GPS (on X-Line models) ensure Husqvarna Automower® covers your entire lawn, even in complex gardens.

NO NOISE. NO FUSS

You'll hardly notice it as it rolls around your garden doing its job quickly, quietly and efficiently. No noise, no fuss – just a great looking lawn.

AUTOMOWER® CONNECT

Control the operation of your Husqvarna Automower® from your iOS or Android smartphone, including location and theft alarm.

WORKS IN THE RAIN

Husqvarna Automower® gives you great cutting results in any type of weather. Its vital parts are safely protected from rain, as well as dust and grass clippings.

MANAGES STEEP SLOPES

Husqvarna Automower® can cope with slopes up to 70% (35°), thanks to optimised design and smart behaviour.

MANAGES PASSAGES

Husqvarna Automower® senses narrow passages and finds its way through even the narrowest gaps.

LOW ENERGY CONSUMPTION

Husqvarna Automower® uses as little as 20W energy when in use, comparable to an traditional style light bulb.

NO TRACK MARKS

Husqvarna Automower® varies its route back to the charger in order to avoid damage and ugly tracks. Mowing in a seemingly random pattern, gives a carpet-like lawn, throughout your garden.

SMART HOME INTEGRATION

Automower® Connect using the smart phone app allows you to integrate your Husqvarna Automower® into your Smart Home. Giving you complete control.

SUSTAINABILITY FIRST

Battery-powered Automower® reduces CO2 emissions significantly for increased sustainability.

CUTS UNEVEN LAWNS

Large wheels and a clever chassis design ensures a perfect result even on a rough lawn.

WEATHER TIMER

Automatically adjusts the mowing frequency depending on the growth conditions of your lawn. For example in drought conditions mowing frequency is reduced.

X-LINE A FULLY-FEATURED RANGE OF ROBOTIC MOWERS

Husqvarna X-Line is our most fully-featured range, designed for those who want the most advanced robotic mower. These robotic mowers are equipped with the X-Line equipment package, including:

- Automower® Connect with GPS theft tracking
- GPS assisted navigation
- LED headlights
- Front rubber bumper
- X-Line body design.

PRODUCT SELECTOR GUIDE

To help select the most suitable Husqvarna Automower® for the size of your lawn, simply choose how many hours of the day you would like the robotic mower to work, this will determine how much free time you will have on your lawn for leisure activities. As an example the mower could work during the night allowing the lawn to be free during the day.

Then select the working area given in m² that matches or exceeds your lawn area. This will then give you the model/s that best suit your lawn area.

Then simply choose the specification that best fulfils your needs. If a single machine does not meet your needs, more than one Husqvarna Automower® can be used in the same area to increase maximum area coverage. Please visit your local Authorised Husqvarna dealer for more information and guidance.

100 / 300 SERIES

The 100 Series is designed for domestic use on smaller flat lawns. Just like the larger models, the 100 series delivers excellent cutting results. 300 Series robotic mowers are ideal for small to mid-sized lawns with some complexity and slopes. Additional 300 series features include weather timer which adjusts the mowing frequency to match the grass growth rate and automatic passage handling for reliable navigation of narrow areas.

Ideal for applications including:

- Small to medium lawns
- Areas with some complexity
- Slopes up to 40% (300 series)
- Passages (300 series)
- Multiple machines per installation
- Night time mowing

AUTOMOWER® 105

Reliable robotic mower for smaller less complex lawns up to 600 m². Ideal for replacing a traditional pedestrian lawnmower.

- Lift & tilt sensors
- Anti-theft alarm

LET OUR EXPERTS TAKE CARE OF YOU

Follow our simple 3 step process:

- STEP 1** Choose the right Husqvarna Automower® for you through professional consultation by a Husqvarna Authorised dealer.

- STEP 2** Professional Husqvarna Automower® installation carried out by an Authorised dealer - you need not lift a finger.

- STEP 3** Start your Husqvarna Automower® and enjoy more free time and a high quality, 'just cut' finish, every day.

For more information and to locate your nearest Husqvarna Authorised dealer please visit:

 www.husqvarna.com/uk/dealer-locator

AUTOMOWER® ENDURANCE BLADES

Husqvarna Automower® Endurance blades providing more than twice the lifetime compared to our original blades thanks to the new design. The design allows for a harder and sharper edge without compromising on safety standards and provides cutting edges on all 4 sides.

Blades	Order PNC	RRP ex VAT	RRP inc VAT
6	595 08 44-01	£19.16	£22.99
45	595 08 44-02	£99.99	£119.99

BLUETOOTH COMMUNICATION

AUTOMOWER® CONNECT@HOME

- Standard equipment on models 305, 310 and 315
- Bluetooth communication up to 30 metres range
- Requires no mobile data contract
- Does not include GPS theft tracking
- Enables basic settings to be adjusted remotely

400 SERIES

400 Series robotic mowers offer the highest cutting capacities, the lowest noise levels and the most advanced features. They can handle small to large uneven, very complex lawns with ease. Additional 400 series features include, excellent terrain performance for uneven areas, Ultrasilent drive motors for no disturbance, up to 70% (35°) slope capabilities and electric height adjustment.

All models feature added intelligence including GPS assisted navigation for efficient lawn coverage in complex areas.

Ideal for applications including:

- **Small to large lawns**
- **Complex areas with obstacles**
- **Multiple areas**
- **Slopes up to 70% (35°)**
- **Narrow passages**
- **Multiple machines per installation**
- **Night time mowing**

SMART HOME ECO SYSTEM

Automower® Connect using the smart phone app allows you to integrate your Husqvarna Automower® into your Smart Home. Giving you complete control.

A SMARTER LAWN CARE EXPERIENCE

STAY IN CONTROL WITH YOUR SMARTPHONE

The Husqvarna Automower® Connect service allows you to take full control of your Husqvarna robotic lawnmower. The service provides two modes of connectivity, depending on model: Automower® Connect for long-range connectivity using cellular communication, or Automower® Connect@Home for short-range, using Bluetooth® wireless technology. You can see where the mower is operating and control the schedules conveniently from wherever you are.

BLUETOOTH COMMUNICATION AUTOMOWER® CONNECT@HOME

- Standard equipment on 300 & 400 series.
- Bluetooth communication up to 30 metres range
- Requires no mobile data contract

UPGRADE TO AUTOMOWER® CONNECT

10 YEARS OF FREE CONNECTIVITY INCLUDED!

The Automower® connect module allows you to control and configure your mower. With the module installed, you can download the app to your Android or iPhone and use it to communicate directly with your mower.

Item	Order PNC	RRP ex VAT	RRP inc VAT
305/310/315	586 66 23-07	£215.83	£259.00

*Automower® Connect covers service during product life (10 years). The Automower® Connect service requires 2G/3G data transfer, technology provided by country-specific telecom operators (3rd party). Husqvarna's service includes product's function, not communication due to data transfer restrictions.

MOBILE DATA COMMUNICATION AUTOMOWER® CONNECT

- Standard equipment on X-Line models.
- Available as an accessory on models 305, 310 and 315
- Mobile data communication worldwide*
- 10 years mobile data contract included*
- Geofence with GPS theft tracking

CONTROL Receive status messages and send Start, Stop and Park commands to the mower from anywhere in the world.

CONFIGURE Brings the mower's menu system to your smartphone. Read and change the mower settings without the need of being on site.

SECURITY Receive alarm and track your mower's position in case of theft.

AVAILABLE ON GOOGLE PLAY
AND ON THE APP STORE

INNOVATIONS TO LEVEL UP YOUR GARDEN

Innovative technology, smart integrations, and partnerships helps us provide intuitive solutions that simplify your life. Intelligent features adapt to your personal needs and make the experience more engaging and supportive. Among our solutions you find voice control through Amazon Alexa or Google Home. Smart connections to sprinklers, personal calendars or local weather through IFTTT and AI driven support give you a smooth experience and great result with Husqvarna Automower®.

TIME TO START MOWING JUST ASK YOUR SMART SPEAKER

All Automower® Connect equipped robotic mowers are compatible with Amazon Alexa and Google Home. This means that all you need is to give your smart speaker a voice command, and your Automower® robotic mower will jump to the task. The smart speakers recognise the most common commands such as start, stop, park, and get status updates by simply asking Alexa. Garden care made as easy as it should be.

EXPLORE IFTTT MAKE YOUR AUTOMOWER® EVEN SMARTER

IFTTT (If This Then That) is a free, easy-to-use web-based service. It allows you to create your own applets and integrate Husqvarna Automower® even more into your smart home systems. For instance, you can set it so Husqvarna Automower® starts mowing when the home alarm is turned on. Or that it should park when the current temperature drops below a certain point – and much, much more. The limits are set by your imagination.

Please visit www.husqvarna.com/uk for further information.

CONTROL YOUR SPRINKLER AND MOWING DIRECTLY FROM YOUR SMARTPHONE

Now you can have an even more intelligent relationship with your garden. By connecting your Husqvarna Automower® to the high-performing GARDENA irrigation smart system, you can easily sync your mower and your irrigation schedule. Sit back and relax while Automower® robotic mower keeps your lawn perfectly cut and healthy. The GARDENA smart system – with its sensors that measure soil moisture, outside temperature and light intensity, and then waters accordingly – will keep your lawn green and fresh. This works with all products equipped with Automower® Connect.

OPEN API GIVING ENDLESS POSSIBILITIES

Our open API solution enables endless connectivity possibilities of personalisation and add-on features through IFTTT (If This Then That).

INSTALLATION AND PRODUCT ACCESSORIES

AUTOMOWER® INSTALLATION KITS

SMALL - Suitable for open lawn areas of max 800 m² or complex lawn areas of max 400 m²

MEDIUM - Suitable for open lawn areas of max 2,000 m² or complex lawn areas of max 1,000 m²

LARGE - Suitable for open lawn areas of max 5,000 m² or complex lawn areas of max 2,500 m²

Item	Order PNC	RRP ex VAT	RRP inc VAT
Small	967 97 21-01	£74.99	£89.99
Medium	967 97 22-01	£116.66	£139.99

PROFESSIONAL DEALERS AT YOUR SERVICE

Our specially trained service engineers know exactly what to check, adjust and replace to keep your machine running safe, smooth and strong for years to come. They only use Husqvarna genuine parts for perfect compatibility and durability. There's nobody better to trust with your Husqvarna than Husqvarna.

PRODUCT SELECTION

Our complete range of robotic mowers allow you to choose the perfect Husqvarna Automower® for your needs.

INSTALLATION

Husqvarna recommend for maximum convenience and to ensure correct installation and trouble-free operation that your local Authorised Husqvarna dealer carries out installation.

REPAIR

In the case, something happens that calls for a repair we have all the spare parts and knowledge needed to fix it.

SCHEDULED SERVICE

Our Authorised Husqvarna dealers keep track of purchase- and service dates so that you never miss a scheduled service appointment.

➤ HUSQVARNA WARRANTY

Consumer Use - Products and Accessories. Husqvarna provides a 24 month warranty for consumer use provided that the following conditions are met: Sale of Husqvarna products must be registered through intended applications in the Husqvarna Reseller Portal, or to its connected services. The Husqvarna Product must have a proven service history in accordance with the product operator handbook/manual (where service instructions are provided).

GENERAL SERVICE

Main checkpoints of your annual service, to keep your machine in perfect condition:

- ✓ Software update, for the latest software
- ✓ Full diagnostic of electronic and battery systems
- ✓ Gasket replacement, to protect your machine from moisture
- ✓ Cutting equipment replacement to ensure maximum cutting performance
- ✓ Wheels check to ensure optimal traction
- ✓ Docking station checking for fault free operation
- ✓ Complete cleaning for extended lifetime

WINTER SERVICE

The servicing extends the life of your Husqvarna Automower® and the service offer includes:

- ✓ Cleaning/washing
- ✓ Electronic diagnostic (autotest)
- ✓ Software update
- ✓ Blades replaced
- ✓ Battery function test (autotest)
- ✓ Battery charging
- ✓ Safety functions test and functional check.

After the service check you will receive a detailed service checklist report.

CUT THE NOISE WITH POWERFUL BATTERY TOOLS

The Husqvarna battery powered product range is built to give you all the power, performance and intuitive design you expect.

Nothing ruins your enjoyment of a Saturday morning like the sound of petrol-powered garden equipment. With low noise and zero direct emissions, the Husqvarna battery range protects your neighborhood's peace and quiet. Long-lasting batteries, push button start and the same performance as petrol-powered equipment means

you can get the work done with less impact on the body and less disturbance to the environment. One battery system fits all tools, so you can switch tasks quickly and easily. Cut the garden and the noise with the Husqvarna Battery Series. To view the full product range please visit:

NOTES

SUSTAINABLE GREEN SPACES THROUGH INNOVATION

Helping to shape green spaces and urban environments is at the core of our vision. By shifting to technologies that make our products as smart, efficient and optimised as possible – and by investing in sustainable innovations – we can make a real difference and contribute to positive change. Below you'll find some of our efforts within our various product categories.

ROBOTICS WITH A VISION: ZERO IMPACT

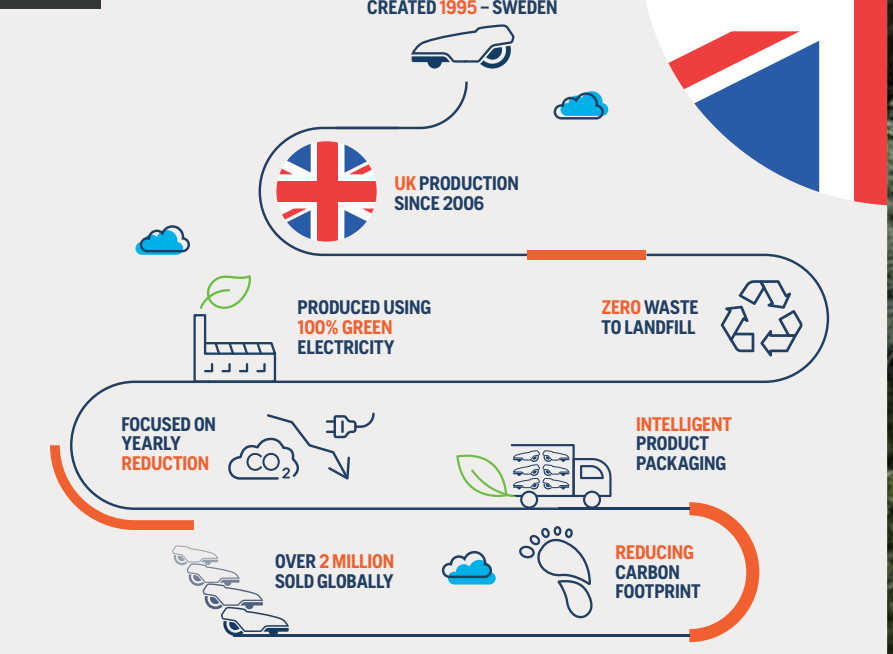

Husqvarna Automower® supports the transition from petrol-driven lawn mowers to silent and efficient lawn management in private gardens, commercial properties and public green spaces. Husqvarna Automower® robotic mowers have an extremely low noise level (down to only 58dB) and can replace ride-on and walk-behind mowers in residential areas, parks and green spaces as well as sports facilities, thereby reducing the carbon footprint and noise levels.

AUTOMOWER® X-LINE - PROUD TO BE MADE IN THE UNITED KINGDOM

Our most advanced range of domestic robotic mowers, Automower® X-Line are proudly made in the United Kingdom. Produced in a state of the art, sustainable factory that uses 100% green electricity with zero waste to landfill.

UK manufacture also includes Automower® models 310 and 315, remaining models are manufactured by Husqvarna in the EU to matching standards.

X-LINE

BATTERY RANGE TO CUT NOISE AND CARBON

Our wide range of low noise, battery-powered equipment delivers opportunities to use low-carbon energy sources and improves safety. Furthermore they spare the environment from fumes and the products have lower vibration and noise levels. Carbon emissions can be reduced to almost zero during use if the battery is charged with renewable energy.

SUSTAINABLE PRINTING

This publication is printed on materials from well-managed forests and other controlled sources. It has been printed using an alcohol-free process, with a water-based varnish and vegetable-based printing inks, which are non-hazardous and are from renewable sources. The printing plates used to produce this brochure were made in a chemical-free process.
